-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mertes. Mertes discloses a wiping device as claimed with a pair of wiping features **6**; a catch **5** and a cap **2** as a continuous piece of material; and a strike **4** and a base **1** as a continuous piece of material. Items **1** and **2** can be considered a base or cap interchangeably. Therefore, Mertes discloses all the features of claims 1-7.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mertes in view of Michaels.
5. Mertes discloses the invention substantially as claimed. However, Mertes does not disclose that the base and cap exist as a continuous piece of material. Michaels discloses how a base and a cap member can exist as a continuous piece of material for

Art Unit: 2859

the purpose of forming a living hinge to allow the two members to be easily brought together and separated (see col. 2, ll. 10-14). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use the continuous living hinge piece as taught by Michaels in conjunction with the Mertes device for the purpose of simplifying the construction of the Mertes device.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
